A refined design that makes the player and instrument stand out,
and enhances any performance.
Multi-functionality that works with any model keyboard in a large variety of situations.
This all-new brand dramatically challenges convention
by focusing completely on what matters most to the player.
Welcome SEQUENZ.

St∝ndard

Strong and Tasteful Design

Steel

Standard-L-SV
●Maximum Keyboard Width:
 1,480mm / 58" or less
●Range of Height Adjustment:
 approximately 650–1,100mm / 26"–43"
●Maximum Load Capacity:
 35kg / 77lbs. per tier or 70kg total / 154lb

Standard-M-SV
●Maximum Keyboard Width:
 1,320mm / 52" or less
●Range of Height Adjustment:
 approximately 650–1,100mm / 26"–43"
●Maximum Load Capacity:
 35kg / 77lbs. per tier or 70kg total / 154lb

Quick release mechanism allows smooth setup
Setup is quick, easy and requires no tools. Thanks to a quick release cam lever mechanism the frame can be quickly disassembled for easy setup or takedown.
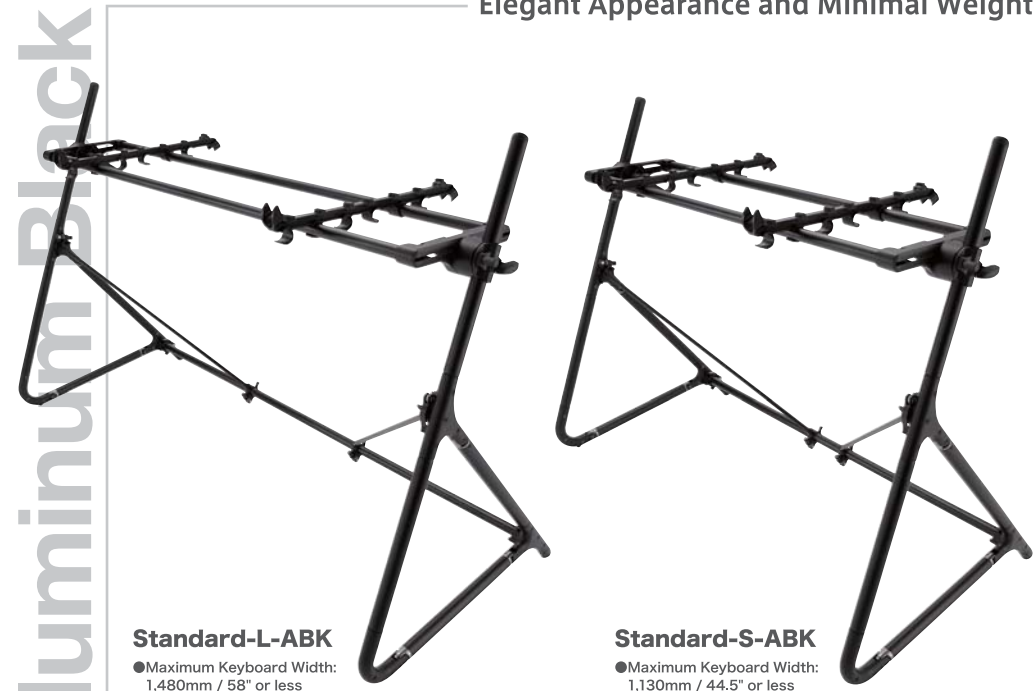

Tier height and angle can be quickly and easily adjusted
The outside knob lets you adjust the height of the tier (keyboard rack) and the inside lever lets you adjust the angle over a smooth range without gradations.

The new standard in keyboard stands

The Standard series emphasizes strength, design, and functionality but does so with style and class. The Standard range covers all performing styles and players, accommodates a range of equipment from small instruments to full-sized keyboards, and can also handle multi-keyboard stacked setups.

Elegant Appearance and Minimal Weight

Aluminum Black

Standard-L-ABK
●Maximum Keyboard Width:
 1,480mm / 58" or less
●Range of Height Adjustment:
 approximately 650–950mm / 26"–37"
●Maximum Load Capacity:
 30kg / 66lbs. per tier or 60kg total / 132lbs.

### Standard-S-ABK
●Maximum Keyboard Width:
 1,130mm / 44.5" or less
●Range of Height Adjustment:
 approximately 650–950mm / 26"–37"
●Maximum Load Capacity:
 30kg / 66lbs. per tier or 60kg total / 132lbs.

Keyboard holders allow the width and depth to be adjusted
Two polymer keyboard holders with excellent retention strength are included. By adjusting the position of the holders, you can accommodate a variety of keyboard shapes and sizes.

Add dedicated separately sold accessories to create two-level setups
Also available in the lineup is the separately sold tier adapter package which includes a tier and two keyboard holders.
